#### **II. SERVICES REQUIRED**

Replacement of old 10-inch sewer main with 10-inch SDR 35 pipe. Install new bore under State Highway with casing. Fill old main under TX-Dot Road with flowable fill concrete. Remove old manholes, install six (6) new manholes with rings and lids and tie in all manholes.

#### **Market Conditions**

The City is aware of the extreme market fluctuations occurring for these services, etc., so we are striving to arrive at a bid format that satisfies state bid law and also protects vendors against future price increases. To protect the vendor and the City, we will ask your company to establish a baseline price for the services and products listed. Prices can be negotiated after bids are opened. Then, based on increases and decreases that occur to the listed products over the term of the agreement, the City will allow increases or decreases in the same amount as the market changes.

However, the winning vendor(s) will be asked to provide documentation proving a change in price has occurred. If prices decrease over the term of this agreement, the winning vendor(s) will be expected to pass along these decreases in pricing. The City will assume that by submitting a bid under this format that your company agrees to this market protection. If you have a different method of price protection, please include your information in your response.

#### **IV: GENERAL INFORMATION**

The City of Palestine is a home rule City located in Anderson County and has a population of approximately 18,712 per the 2010 U.S. Census estimate. The City operates under a Council-Manager form of government with a Mayor, six (6) Council Members, and a City Manager.
